

NTS Services Spotlight: Managed Engineering

Specialists in Providing Integrated Solutions for our Clients

We provide a dedicated Program Manager as your single point of contact

Achieve higher completion of on-time market release of your product

By involving NTS's Subject Matter Experts our clients realize significant cost savings

Managing ongoing day-to-day operations within your organization that are not a part of your company's core competency can create a drain on your talent resources. What's more, in today's marketplace you face ever-increasing pressure to:

- ▶ Launch products faster
- ▶ Incorporate processes to drive down costs
- ▶ Locate and retain specialized talent

Organizations that are able to efficiently manage all these tasks are the ones that succeed. Partnering with experienced professionals to help you meet these challenges optimizes your resources, both human and physical, enabling you to focus on your business and your bottom line.

The NTS Solution

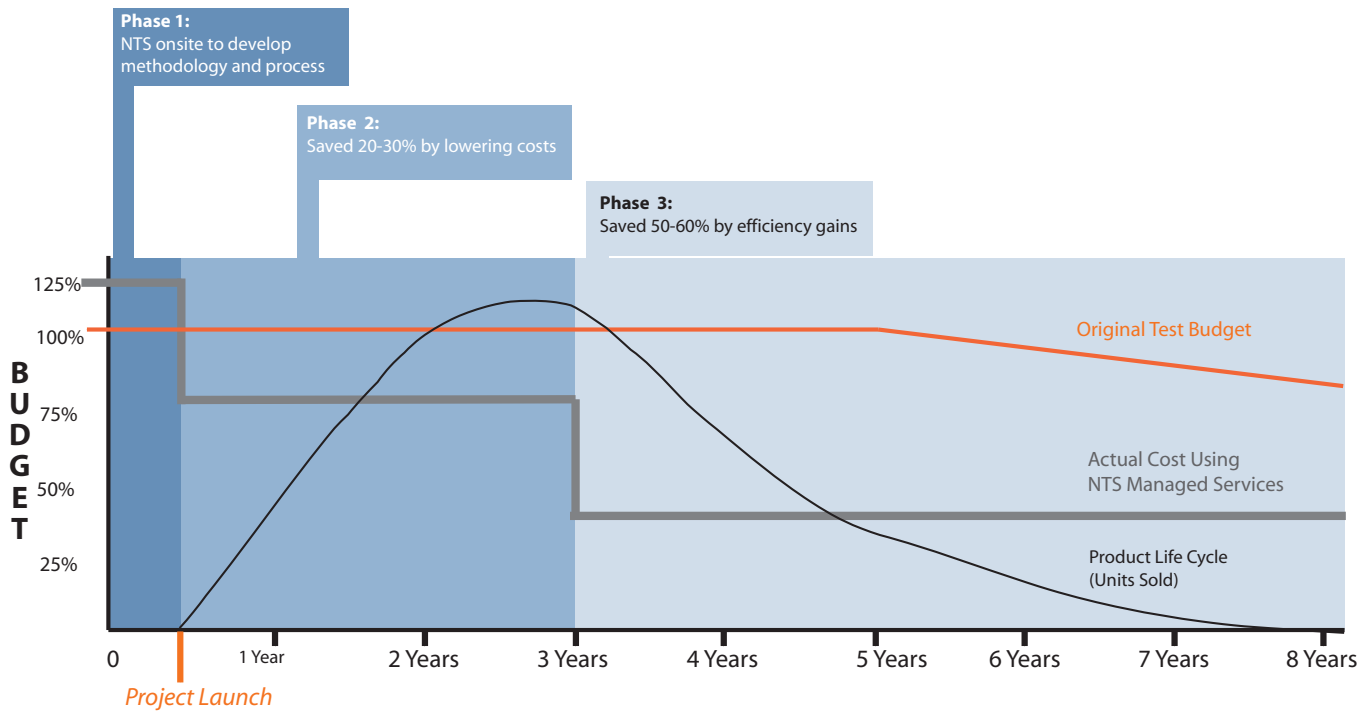

NTS has profitably managed test and engineering facilities for over 50 years, utilizing our world-class network of engineers and Subject Matter Experts. As your Managed Engineering Services partner, NTS can provide a customized, flexible integrated solution to your workflow challenges, giving you peace of mind and more time to focus on key areas of your business.

We make it happen with:

- ▶ Facility/Lab Planning
- ▶ Resource/Risk Management
 - On-site and Off-site Teams
 - Off-shore Teams
- ▶ Lab Accreditation
- ▶ Quality System/Procedures
- ▶ Life Cycle Integration Services
- ▶ Product Services
 - Computer Technology Testing
 - New Product Development Testing
 - EMI/EMC Testing
 - Reliability Testing
 - Stress/Thermal Analysis
 - Telecom/Broadband/Wireless Testing
 - Satellite Testing
 - International Certification
 - Witness Testing/3rd Party Validation

A professional Program Manager works with you to create your organization's own integrated solution. Since it is created for your organization alone, your integrated solution is designed to give you the savings and results you want. Your dedicated Program Manager is your single point of contact, backed by a team of professionals giving you a seamless, cohesive solution.

NTS Services Spotlight: Managed Engineering
Specialists in Providing Integrated Solutions for our Clients

NTS's Managed Engineering Services program facilitates effective and efficient operations - you maintain overall management control of your operation.

Integrated Solutions

By involving NTS's Subject Matter Experts in the early stages of product development and incorporating test design from the inception, our clients realize significant cost savings and a higher completion of on-time market release of their products.

The above chart is an example of the savings a client can realize by taking advantage of on-site and off-shore Managed Engineering Services options.

About NTS

National Technical Systems (NTS) provides test, inspection and certification services to help clients build better, stronger, safer, more reliable products and bring those products to market quickly and efficiently. Over the last 50 years, through a combination of acquisitions, innovations and organic growth we have grown to become one of the largest commercial test laboratory networks in North America. Our capabilities span a very wide spectrum, covering environmental, dynamics, EMC, wireless, product safety, materials, ballistics and more. NTS engineers and technicians have extensive knowledge of current test and conformity requirements, both domestic and international over a range of industries including aerospace, defense, telecom and energy.
